FOREWORD

Income Security Programs Branch is pleased to present the publication *Annual Statistics on the Canada Pension Plan and Old Age Security*.

The publication provides historical tables on frequently requested information. Aggregate data relating to beneficiaries, benefit rates and expenditures were compiled from the Canada Pension Plan and Old Age Security Monthly Statistical Bulletins, and from the Income Security Programs Annual Reports.

The publication is made available to federal, provincial and municipal governments, social security organizations and the private sector. We hope the information will be of interest and value to researchers working in the field of social security, and to others.

For further information, readers are invited to contact:

AVANT-PROPOS

La Direction générale des programmes de la sécurité du revenu a le plaisir de présenter la publication *Statistiques annuelles sur le Régime de pensions du Canada et la Sécurité de la vieillesse*.

La publication présente des tableaux chronologiques sur les renseignements qui sont fréquemment demandés. L'ensemble des données reliées aux bénéficiaires, aux taux des prestations et aux dépenses a été compilé à partir des Bulletins de statistiques mensuelles sur le Régime de pensions du Canada et la Sécurité de la vieillesse, ainsi que des rapports annuels des Programmes de la sécurité du revenu.

La publication est mise à la disposition des gouvernements fédéral, provinciaux et municipaux, des organismes de sécurité sociale et du secteur privé. Nous espérons que les renseignements intéresseront les chercheurs travaillant dans le domaine de la sécurité sociale et qu'ils leur seront utiles, et qu'il en sera de même pour d'autres personnes.

Pour de plus amples renseignements, les lecteurs sont invités à communiquer avec :

SOURCES AND LIMITATIONS OF DATA

PROVENANCE ET LIMITES DES DONNÉES

Sources of Data

Aggregate data were compiled from figures previously published in the Canada Pension Plan and Old Age Security Monthly Statistical Bulletins, and in the Income Security Programs Annual Reports.

Limitations of Data

Historical series generally begin with the year 1970. Desegregated data were limited or not available for earlier years.

Canada Pension Plan: As of October 1979, beneficiaries are classified according to place of residence. Beneficiaries living outside Canada appear in the category "Outside Canada". Prior to that date, beneficiaries were classified according to the province where they made contributions.

Old Age Security: In 1979, data compilation methods for the Old Age Security program were modified to increase the statistical information available.

Old Age Security benefits paid under reciprocal Social Security Agreements are shown in separate tables entitled "International Operations". These tables include benefits paid to persons living in Canada or abroad.

Rounding of Data

Due to rounding, data may not always add to the totals shown.

Symbols

The following symbols were used in this publication.

- ... figures not appropriate or not applicable;
- nil or amount too small to be expressed.

Provenance des données

L'ensemble des données a été compilé à partir des chiffres publiés antérieurement dans les Bulletins de statistiques mensuelles sur le Régime de pensions du Canada et la Sécurité de la vieillesse, ainsi que des rapports annuels des Programmes de la sécurité du revenu.

Limites des données

Les séries chronologiques commencent en général avec l'année 1970. La dispersion des données était limitée ou non disponible pour les années antérieures.

Régime de pensions du Canada : À partir d'octobre 1979, les bénéficiaires sont répartis selon le lieu de résidence. Les bénéficiaires vivant hors du Canada figurent dans la catégorie «extérieur du Canada». Avant cette date, les bénéficiaires étaient répartis selon la province où ils avaient versé leurs cotisations.

Sécurité de la vieillesse : En 1979, les méthodes de compilation des données statistiques sur la Sécurité de la vieillesse ont été modifiées pour augmenter le nombre de renseignements statistiques disponibles.

Les prestations de la Sécurité de la vieillesse versées en vertu d'accords réciproques sur la sécurité sociale sont présentées dans des tableaux séparés intitulés «Opérations internationales». Ces tableaux comprennent les prestations versées aux personnes vivant au Canada ou à l'extérieur du pays.

Arrondissement des données

Les nombres étant arrondis, l'addition des données ne correspond pas toujours aux totaux indiqués.

Symboles

Les symboles suivants ont été utilisés dans la présente publication :

- ... nombres n'ayant pas lieu de figurer;
- néant ou nombre infime.

CANADA PENSION PLAN

RÉGIME DE PENSIONS DU CANADA

CANADA PENSION PLAN

Introduction

The Canada Pension Plan (CPP) is a contributory, earnings-related social insurance program. It ensures a measure of protection to a contributor and his or her family against the loss of income due to retirement, disability and death. The Plan operates throughout Canada. Quebec has its own similar program, the Quebec Pension Plan (QPP), which is closely associated with the CPP. The operation of the two plans is coordinated through a series of agreements between the federal and Quebec governments. Benefits from either plan are based on pension credits accumulated under both, as if only one plan existed.

The Canada Pension Plan was enacted in 1965 and came into force on January 1, 1966. It covers nearly all employed and self-employed persons in Canada (except Quebec), who are between the ages of 18 and 70 and who earn more than a minimum level of earnings in a calendar year.

The CPP is financed through contributions from employees, employers and self-employed persons as well as from investment earnings of the Canada Pension Plan Account.

The Canada Pension Plan provides the following types of benefits: retirement pension, disability pension, surviving spouse's pension, disabled contributor's child's benefit, orphan's benefit, and a lump-sum death benefit.

Retirement Pension: Any person who has made at least one valid contribution to the CPP is eligible to receive a monthly retirement pension at age 65. Actuarially adjusted pensions are available to persons retiring between the ages of 60 and 70.

Disability Pension: A monthly disability pension is payable to contributors with a severe and prolonged physical or mental disability, if they are under age 65 and meet minimum contribution requirements. At age 65 the pension is automatically converted to a retirement pension.

RÉGIME DE PENSIONS DU CANADA

Introduction

Le Régime de pensions du Canada (RPC) est un régime d'assurance sociale contributif fondé sur les gains. Il protège un cotisant et sa famille contre la perte de revenu attribuable à la retraite, à l'invalidité et au décès. Le Régime est applicable dans tout le Canada. Le Québec a un programme similaire, soit le Régime de rentes du Québec (RRQ), qui est étroitement lié au RPC. Des accords entre le gouvernement fédéral et le gouvernement du Québec coordonnent l'application des deux régimes. Les prestations sont fondées sur les crédits de pension accumulés dans le cadre des deux régimes, comme s'il n'existe qu'un seul régime.

Le Régime de pensions du Canada a été promulgué en 1965 et est entré en vigueur le 1^{er} janvier 1966. Il s'adresse à presque toutes les personnes salariées ou travaillant à leur propre compte au Canada (sauf au Québec) qui ont de 18 à 70 ans et dont les gains, au cours d'une année civile, dépassent un niveau minimal de gains prévu.

Le RPC est financé au moyen de cotisations provenant des employés, des employeurs et des travailleurs autonomes de même qu'au moyen des revenus de placement du Compte du Régime de pensions du Canada.

Le Régime de pensions du Canada prévoit les genres suivants de prestations : la pension de retraite, la pension d'invalidité, la pension de conjoint survivant, la prestation d'enfant de cotisant invalide, la prestation d'orphelin et la prestation de décès versée en un seul montant.

Pension de retraite : Toute personne qui a effectué au moins une cotisation valide au RPC peut recevoir une pension de retraite mensuelle à l'âge de 65 ans. Des pensions ajustées actuellement sont mises à la disposition des personnes qui prennent leur retraite entre 60 et 70 ans.

Pension d'invalidité : Une pension mensuelle d'invalidité peut être versée aux cotisants qui sont atteints d'une invalidité physique ou mentale à la fois grave et prolongée, s'ils sont âgés de moins de 65 ans et s'ils satisfont aux exigences minimales en matière de cotisations. À l'âge de 65 ans, la pension est automatiquement convertie en pension de retraite.

Surviving Spouse's Pension: A monthly survivor's pension is payable to the surviving legal spouse of a deceased contributor or to a person of the opposite sex who lived in a marital relationship with the contributor for at least one year immediately prior to death.

Survivors under age 45 are only eligible for a full pension if they have dependent children or are disabled. Survivors who do not meet these criteria may be eligible for a reduced pension if they are between the ages of 35 and 45.

Child of a Disabled Contributor: A monthly benefit is payable on behalf of the child of a disability pension recipient. The child must be under age 18, or attending school full-time if between the ages of 18 and 25.

Orphan's Benefit: A monthly benefit is payable on behalf of the child of a deceased contributor. The child must be under age 18, or attending school full-time if between the ages of 18 and 25.

Death Benefit: A lump-sum benefit is payable to the estate of the deceased contributor.

The first retirement pension was paid in 1967. Survivor and disability pensions were first paid in 1968 and 1970, respectively. Prior to 1987, the survivor pension was terminated upon remarriage.

Since 1978, the CPP has contained a provision allowing CPP credits to be divided between ex-spouses after a divorce or legal annulment. In January 1987, the provision was broadened to include couples who separate from a legal or common-law union.

All CPP benefits are adjusted in January of each year to reflect the full increase in the cost of living as measured by the Consumer Price Index.

Reciprocal Social Security Agreements

Since 1979, Canada has entered into reciprocal social security agreements with 27 countries. These agreements allow for the coordination of two countries' social security programs and make social security benefits portable between countries.

Pension de conjoint survivant : Une pension mensuelle de conjoint survivant est versée au conjoint légal d'un cotisant décédé ou à la personne du sexe opposé qui a vécu maritalement avec le cotisant pendant au moins un an immédiatement avant le décès du cotisant.

Les survivants âgés de moins de 45 ans ne sont admissibles à la pension intégrale que s'ils ont des enfants à charge ou s'ils sont invalides. Les survivants qui ne satisfont pas à ces critères peuvent être admissibles à une pension réduite s'ils ont entre 35 et 45 ans.

Enfant de cotisant invalide : Une prestation mensuelle est versée à l'égard d'un enfant d'une personne qui touche une pension d'invalidité. L'enfant doit être âgé de moins de 18 ans, ou doit fréquenter l'école à plein temps, s'il a entre 18 et 25 ans.

Prestation d'orphelin : Une prestation mensuelle est versée à l'égard d'un enfant d'un cotisant décédé. L'enfant doit être âgé de moins de 18 ans, ou doit fréquenter l'école à plein temps, s'il a entre 18 et 25 ans.

Prestation de décès : Une prestation de décès versée en un seul montant est accordée à la succession d'un cotisant décédé.

La première pension de retraite a été versée en 1967. Les pensions de survivant et d'invalidité ont été versées pour la première fois en 1968 et en 1970 respectivement. Avant 1987, une pension de conjoint survivant cessait d'être versée lorsque le bénéficiaire se remariait.

Depuis 1978, le RPC prévoit le partage des crédits du RPC entre les anciens conjoints après un divorce ou une annulation légale. En janvier 1987, cette disposition a été élargie en vue d'inclure les couples qui se séparent pour mettre fin à une union légale ou à une union de fait.

Toutes les prestations du RPC sont rajustées en janvier de chaque année afin de tenir compte de l'augmentation intégrale du coût de la vie qui est mesurée par l'indice des prix à la consommation.

Accords réciproques sur la sécurité sociale

Depuis 1979, le Canada a conclu des accords réciproques sur la sécurité sociale avec 27 pays. Ces accords permettent la coordination des programmes de sécurité sociale entre deux pays et assurent la transférabilité des prestations de sécurité sociale entre les pays.

Agreements may help persons to qualify for CPP disability, survivor and death benefits. Each of these benefits has minimum qualifying conditions. An agreement may allow periods of contribution to the other country's social security system to be added to periods of contribution to the CPP in order to meet these conditions. Benefit amounts are based on actual CPP contributions.

The CPP retirement pension is not included in agreements, since it is payable to anyone who has made at least one valid contribution to the CPP.

Les accords peuvent aider des particuliers à devenir admissibles aux prestations d'invalidité, de survivant et de décès du RPC. Chacune de ces prestations prévoit des conditions minimales d'admissibilité. Un accord peut permettre d'ajouter les périodes de cotisation au système de sécurité sociale de l'autre pays aux périodes de cotisation au RPC dans le but de satisfaire à ces conditions. Le montant des prestations est basé sur les cotisations réelles au RPC.

La pension de retraite du RPC n'est pas incluse dans les accords puisqu'elle est payable à toute personne qui a fait au moins une cotisation valide au Régime.

Definitions and Terminology

Terms are defined under the first table in which they appear.

TABLE 1

Maximum Pensionable Earnings, Year's Basic Exemption and Maximum Contributory Earnings

Contributions are made on the portion of an individual's annual earnings above the Year's Basic Exemption (YBE) and up to a ceiling known as the Year's Maximum Pensionable Earnings (YMPE). The YMPE is linked directly with the average Canadian wage and the YBE is equal to approximately 10 percent of the YMPE in any given year.

Contributions are calculated on the level of Maximum Contributory Earnings (MCE) which represents the difference between the YMPE and the YBE.

Contribution Rate

From 1966 to 1986, employees contributed 1.8 percent of covered earnings and their employer paid a matching contribution. Self-employed persons contributed at the rate of 3.6 percent on the same range of annual earnings. Between 1987 and 1996, the contribution rate will increase annually by 0.1 percent of covered earnings for employees as well as employers (0.2 percent for self-employed persons). The contributory rate for 1994 is 2.6 percent of covered earnings for employees and employers (5.2 percent for self-employed persons).

Contribution rates will continue to rise gradually under the current 25-year schedule. Federal and provincial Finance ministers must review and update this schedule every five years.

Flat-Rate

The flat-rate component is a legislated amount unrelated to previous earnings, which is added to the earnings-related portion of a disability or survivor pension.

Définitions et terminologie

Les termes sont définis sous le premier tableau dans lequel ils apparaissent.

TABLEAU 1

Maximum des gains ouvrant droit à pension, exemption de base annuelle et maximum des gains cotisables

Des cotisations sont prélevées sur la tranche des gains annuels d'un particulier compris entre l'exemption de base de l'année (EBA) et un plafond prescrit qui est le maximum des gains annuels ouvrant droit à pension (MGAP). Le MGAP est directement lié au salaire moyen canadien et l'EBA correspond à environ 10 p. 100 du MGAP au cours d'une année donnée.

Les cotisations sont calculées sur le niveau du maximum des gains cotisables (MGC) qui représente la différence entre le MGAP et l'EBA.

Taux de cotisation

De 1966 à 1986, les employés versaient une cotisation de 1,8 p. 100 des gains assurés et leur employeur versait une cotisation égale. Les cotisations des travailleurs autonomes s'élevaient à 3,6 p. 100, sur la même tranche des gains annuels. Entre 1987 et 1996, le taux de cotisation augmentera annuellement de 0,1 p. 100 des gains assurés pour les employés de même que pour les employeurs (0,2 p. 100 pour les travailleurs autonomes). Le taux de cotisation pour 1994 est de 2,6 p. 100 pour les employés et les employeurs (5,2 p. 100 pour les travailleurs autonomes).

Les taux de cotisation continueront d'augmenter graduellement dans le cadre du calendrier actuel de 25 ans. Les ministres fédéral et provinciaux des Finances doivent examiner et mettre à jour tous les cinq ans ce calendrier des taux.

Taux uniforme

La composante à taux uniforme est un montant prévu par la loi qui n'est pas lié aux gains antérieurs et qui est ajouté à la partie afférente aux gains d'une pension d'invalidité ou de survivant.

Indexation Rate of Benefits

All CPP benefits are adjusted in January each year to reflect the full increase in the cost of living as measured by the Consumer Price Index (CPI).

The indexation rate is calculated by dividing the average of the CPI for the twelve month period ending in October of the preceding year by the average of the CPI for the previous twelve month period.

Special Adjustment Rates for 1973

Prior to 1974, benefit increases were limited to 2 percent a year. Benefits in pay at the end of 1973 were adjusted before the 1974 indexation rate was applied, to reflect the full CPI increase from 1967.

TABLE 2

Maximum Monthly Rates for New Benefits

New CPP benefit rates are determined as follows:

- a) **Retirement at age 65:** The monthly pension is equal to 25 percent of the contributor's average monthly pensionable earnings.

A maximum adjustment of 30 percent (down or up) may be made to the pension for early or late retirement.

- b) **Disability:** The monthly pension consists of a flat-rate component and an earnings-related component. The earnings-related component is equal to 75 percent of the retirement pension, calculated as if the contributor became 65 years of age in the month when the disability pension became payable.

- c) **Survivor aged 65 or over:** The monthly pension is equal to 60 percent of the actual or calculated retirement pension of the deceased contributor.

Taux d'indexation des prestations

Toutes les prestations du RPC sont rajustées en janvier de chaque année afin de tenir compte de l'augmentation intégrale du coût de la vie qui est mesurée par l'indice des prix à la consommation (IPC).

Le taux d'indexation est calculé en divisant la moyenne de l'IPC pour la période de douze mois se terminant en octobre de l'année précédente par la moyenne de l'IPC pour la période des douze mois précédents.

Rajustement spécial des taux pour 1973

Avant 1974, les augmentations des prestations étaient limitées à 2,0 p. 100 par année. Les prestations versées à la fin de 1973 ont été rajustées avant l'application du taux d'indexation de 1974 afin de tenir compte de la hausse intégrale de l'indice des prix à la consommation depuis 1967.

TABLEAU 2

Taux mensuels maximaux pour les nouvelles prestations

Les taux des nouvelles prestations du RPC sont calculés de la façon suivante :

- a) **Retraite à l'âge de 65 ans :** La pension mensuelle est égale à 25 p. 100 de la moyenne mensuelle des gains ouvrant droit à pension du cotisant.

Un rajustement maximal de 30 p. 100 (vers le bas où le haut) peut être apporté à la pension pour la retraite anticipée ou différée.

- b) **Invalidité :** La pension mensuelle comprend une composante à taux uniforme et une composante fondée sur les gains. La composante fondée sur les gains équivaut à 75 p. 100 du montant de la pension de retraite calculée comme si le cotisant avait atteint 65 ans au cours du mois où la pension d'invalidité a débuté.

- c) **Survivant âgé de 65 ans ou plus :** La pension mensuelle équivaut à 60 p. 100 de la pension de retraite réelle ou calculée du cotisant décédé.

Survivor under age 65: The monthly pension consists of a flat-rate component and an earnings-related component. The earnings-related component is equal to 37.5 percent of the actual or calculated retirement pension of the deceased contributor.

- d) **Death benefit:** A lump-sum payment equal to six times the monthly retirement pension of the deceased contributor, or approximately 10 percent of the YMPE, whichever is less.
- e) **Orphan's and Child's:** The monthly benefit is a flat-rate payment specified by legislation and indexed annually to the CPI.
- f) **Combined pensions:** A combined survivor and retirement pension may not exceed the maximum retirement pension. A combined survivor and disability pension may not exceed the maximum retirement pension, plus the larger of the two flat-rate amounts.

TABLE 4

Contributions

Contributions are made by employees, employers and self-employed persons.

Interest on Investments

Interest payments received on CPP funds borrowed by the provinces or invested in federal securities.

Other Revenues

Interest payments received on the operating balance (amount required to pay benefits and administrative costs) of the Canada Pension Plan Account.

Benefits

Payments to Canada Pension Plan beneficiaries.

Administration

Administrative costs charged against the Canada Pension Plan Account by departments or agencies providing services to the Plan.

Survivant âgé de moins de 65 ans : La pension mensuelle comprend une composante à taux uniforme et une composante fondée sur les gains. La composante fondée sur les gains équivaut à 37,5 p. 100 du montant de la pension de retraite réelle ou calculée du cotisant décédé.

- d) **Prestation de décès :** Un paiement unique équivalant à six fois le montant de la pension de retraite mensuelle du cotisant décédé ou à environ 10 p. 100 du MGAP, selon le moindre de ces deux montants.
- e) **Orphelin et enfant :** La prestation mensuelle est un montant à taux uniforme déterminé par la loi et indexé annuellement sur l'IPC.
- f) **Pensions combinées :** Une pension combinée de survivant et de retraite ne peut pas dépasser le montant maximal de la pension de retraite. Une pension combinée de survivant et d'invalidité ne peut pas dépasser le montant maximal de la pension de retraite additionnée au plus grand des deux montants à taux uniforme.

TABLEAU 4

Cotisations

Les cotisations sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte.

Intérêts sur les placements

Montants reçus en intérêts sur les fonds du RPC empruntés par les provinces ou placés dans des titres fédéraux.

Autres revenus

Montants reçus en intérêts sur le solde de fonctionnement (montant requis pour le paiement des prestations et des frais administratifs) du Compte du Régime de pensions du Canada.

Prestations

Versements aux bénéficiaires du Régime de pensions du Canada.

Administration

Frais administratifs imputés au Compte du Régime de pensions du Canada par les ministères et les organismes qui assurent des services au Régime.

TABLE 5

Administrative Costs

Administrative costs charged against the Plan for services provided by the following departments and agencies:

- **Human Resources Development** for the general administration of the Plan, the assignment of social insurance numbers, and the maintenance of the central index;
- **Revenue Canada, Taxation** for the collection of contributions;
- **Public Works and Government Services** for accounting and computer services, issuance of cheques, maintenance of contributors' Record of Earnings, and accommodations;
- **Office of the Superintendent of Financial Institutions** for actuarial services.

TABLE 6

Investment Fund

The Canada Pension Plan Investment Fund represents monies loaned to the provinces and territories or invested in federal securities.

Revenues in the CPP Account in excess of the operating balance (amount required to pay benefits and administrative costs) are offered to the provinces and territories based on their proportion of total contributions to the CPP over the preceding 10 years. The excess funds are invested in the securities of these provinces or territories.

Any funds not taken up by the provinces and territories are invested in federal securities.

Funds derived from the contributions of certain federal employees (members of the Canadian Armed Forces, for example) who reside in Quebec are invested in the securities of that province, while contributions from employees outside Canada are invested in federal securities.

TABLEAU 5

Frais administratifs

Frais administratifs imputés au Régime pour les services fournis par les ministères et les organismes suivants :

- **Développement des ressources humaines** pour l'administration générale du Régime, l'attribution des numéros d'assurance sociale et la tenue du fichier central;
- **Revenue Canada, Impôt** pour la perception des cotisations;
- **Travaux publics et Services gouvernementaux** pour les services comptables et informatiques, l'émission des chèques, la tenue du Registre des gains des cotisants et les installations;
- **Bureau du surintendant des institutions financières** pour les services actuariels.

TABLEAU 6

Fonds de placement

Le Fonds de placement du Régime de pensions du Canada représente les montants prêtés aux provinces et aux territoires ou investis dans des titres fédéraux.

Les revenus du Compte du RPC excédant le solde de fonctionnement (montant requis pour le paiement des prestations et des frais administratifs) sont offerts aux provinces et aux territoires au prorata de leurs cotisations totales versées au RPC durant les dix années précédentes. Les fonds excédentaires sont investis dans des titres de ces provinces ou territoires.

Les fonds refusés par les provinces et les territoires sont investis dans des titres fédéraux.

Les fonds provenant de cotisations de certains employés fédéraux (de membres des Forces armées canadiennes, par exemple) résidant au Québec sont investis dans des titres de cette province, tandis que ceux des employés qui travaillent à l'extérieur du Canada sont investis dans des titres fédéraux.

All securities are purchased at cost, are non-negotiable, and have a term of 20 years or less as may be determined by the Minister of Finance.

Table 6 presents net Fund investment since the Plan began in 1966. Figures for the first 20 years represent only investment purchased. After 1986, figures represent net investment after reimbursement of mature 20 year investments.

TABLE 7

Investments Purchased and Reimbursed

This table presents investments purchased and reimbursed by fiscal year since 1985-1986. It shows that reimbursed investments were greater than those purchased for fiscal year 1993-94, which may help to clarify the negative numbers in Table 6.

TABLE 8

Interest Rates

Interest rates are based on a weighted average of the current rates of federal securities which have a maturity of 20 years or more.

TABLE 9

Monthly Average Number of Benefits

The sum of the number of benefits paid to beneficiaries for each month of the year, divided by 12.

Orphan's/Child's

Children who receive two disabled contributor's child's benefits and/or orphan's benefits, are counted twice.

Combined Pensions

Persons receiving a survivor's pension may also be entitled to a retirement or disability pension based on their own CPP contributions. In these cases, the surviving spouse receives a combined survivor/retirement pension or a survivor/disability pension.

Tous les titres sont achetés au prix coûtant, ne sont pas négociables, et leur durée est de 20 ans ou moins, tel qu'il peut en être décidé par le ministre des Finances.

Le tableau 6 présente les placements nets du Fonds depuis le début du Régime. Les chiffres pour les vingt premières années représentent seulement les placements achetés. Après 1986, les chiffres représentent les placements nets achetés par suite du remboursement des placements qui ont atteint l'échéance de vingt ans.

TABLEAU 7

Placements achetés et remboursés

Ce tableau présente les placements achetés et remboursés par année financière depuis 1985-1986. Il montre que les placements remboursés étaient plus grands que ceux qui étaient achetés pour l'année financière 1993-1994, ce qui peut aider à éclaircir les chiffres négatifs dans le tableau 6.

TABLEAU 8

Taux d'intérêt

Les taux d'intérêt sont basés sur une moyenne pondérée des taux actuels des titres fédéraux qui ont une échéance de 20 ans ou plus.

TABLEAU 9

Nombre moyen mensuel de prestations

La somme du nombre de prestations versées aux bénéficiaires pour chaque mois de l'année, divisée par 12.

Enfant/orphelin

Les enfants qui reçoivent deux prestations d'enfant de cotisant invalide et/ou prestations d'orphelin sont comptés deux fois.

Pensions combinées

Les personnes recevant une pension de survivant peuvent aussi avoir droit à une pension de retraite ou d'invalidité d'après leurs propres cotisations au RPC. Dans ces cas, le conjoint survivant reçoit une pension combinée de survivant et de retraite ou de survivant et d'invalidité.

These pensions are included in their respective category, as well as the "Combined" category. To obtain the number of beneficiaries, the number of combined pensions must be deducted from the "Total" column.

TABLE 37

Amount Paid

Payments to Canada Pension Plan beneficiaries.

TABLE 65

Monthly Average Amount Paid for Benefits

The sum of benefits paid each month, divided by the total number of benefits paid in the year. Does not include retroactive payments.

TABLE 79

Number of New Benefits

Benefits paid for the first time.

Death benefit

A lump-sum payable to the estate of a deceased contributor.

Ces pensions sont déjà présentées dans leur propre catégorie ainsi que dans la catégorie «Combinées». Pour obtenir le nombre de bénéficiaires, le nombre de pensions combinées doit être soustrait de la colonne «Total».

TABLEAU 37

Montant versé

Versements aux bénéficiaires du Régime de pensions du Canada.

TABLEAU 65

Montant mensuel moyen versé pour les prestations

La somme des prestations versées chaque mois, divisée par le nombre total de prestations versées au cours de l'année. N'inclut pas les montants versés rétroactivement.

TABLEAU 79

Nombre de nouvelles prestations

Prestations versées pour la première fois.

Prestation de décès

Un paiement unique versé à la succession du cotisant décédé.

EXPLANATORY NOTES

Table	Note	Description
1	(1)	"Maximum Pensionable Earnings", "Year's Basic Exemption" and "Maximum Contributory Earnings" are explained in the <u>Definitions and Terminology</u> section, under Table 1.
	(2)	Employees and employers contribute at the same rate. Self-employed persons contribute at twice the employee rate.
	(3)	A legislated amount unrelated to previous earnings, which is added to the earnings-related portion of a disability or survivor pension.
	(4)	Prior to 1974, benefit increases were limited to 2 percent a year. Effective January 1974, benefits are indexed annually to reflect full increases in the CPI.
	(5)	Benefits in pay at the end of 1973 were adjusted before the 1974 indexation rate was applied, to reflect the full CPI increase from 1967.
2	(1)	Maximum amount of pension with retirement at age 65.
	(2)	December rates are shown because they represent the highest amount payable during the year. Payment of maximum benefit requires a minimum of 120 months of contributions for a retirement pension and 60 months for a disability pension.
	(3)	In these years, the amount paid was higher when the contributor died in December and when the survivor's pension started in January of the following year. In most years, the

NOTES EXPLICATIVES

Tableau	Note	Description
1	(1)	Les termes «Maximum des gains ouvrant droit à pension», «Exemption de base annuelle» et «Maximum des gains cotisables» sont expliqués dans la section <u>Définitions et terminologie</u> , sous la rubrique «Tableau 1».
	(2)	L'employé et l'employeur cotisent au même taux. Le taux de cotisation d'un travailleur autonome est le double de celui de l'employé.
	(3)	Un montant prévu par la loi non relié aux gains antérieurs qui est ajouté à la partie afférente aux gains d'une pension d'invalidité ou de survivant.
	(4)	Avant 1974, les augmentations des prestations étaient limitées à 2,0 p. 100 par année. À partir de janvier 1974, les prestations sont indexées annuellement afin de tenir compte de l'augmentation intégrale de l'IPC.
	(5)	Les prestations versées à la fin de 1973 ont été rajustées avant l'application du taux d'indexation de 1974 afin de tenir compte de la hausse intégrale de l'IPC depuis 1967.
2	(1)	Montant maximal de la pension dans le cas d'une retraite à l'âge de 65 ans.
	(2)	Les taux du mois de décembre sont indiqués parce qu'ils représentent le plus haut montant payable pendant l'année. Le versement maximal de la prestation requiert un minimum de 120 mois de cotisations pour une pension de retraite et de 60 mois pour une pension d'invalidité.
	(3)	Dans ces années, le montant versé était plus élevé quand le cotisant décédait en décembre et quand la pension de conjoint survivant commençait en janvier de l'année suivante.

pension was higher when the survivor's pension began in the year of the contributor's death.

- (4) Prior to 1978, the first three orphans or children of a disabled contributor each received a full benefit (Column A), while the fourth and subsequent orphans/children each received half of that benefit (Column B).
 - (5) The disabled contributor child's benefit began in 1970.
- 3 (1) See note (1) of Table 2.
 (2) See note (2) of Table 2.
 (3) See note (3) of Table 2.

9-36 (1) To obtain the number of beneficiaries, the number of combined pensions must be deducted from the data shown in the "Total" column.

- | | | | |
|---------|---|---------|---|
| 107-109 | (1) Age of beneficiary as of the month of June. | 107-109 | (1) Âge du bénéficiaire au mois de juin. |
| 110-112 | (1) Age of beneficiary as of the effective date of the pension. | 110-112 | (1) Âge du bénéficiaire en date du début de la pension. |
| 113 | (1) Age of contributor at death. | 113 | (1) Âge du cotisant au décès. |

Dans la plupart des cas, la pension était plus élevée quand la pension de conjoint survivant commençait dans l'année du décès du cotisant.

- (4) Avant 1978, chacun des trois premiers orphelins ou enfants d'un cotisant invalide recevait le montant intégral de la prestation (colonne A), tandis qu'à partir du quatrième orphelin/enfant, chacun recevait la moitié de cette prestation (colonne B).
 - (5) La prestation d'enfant de cotisant invalide a commencé en 1970.
- 3 (1) Voir la note (1) du tableau 2.
 (2) Voir la note (2) du tableau 2.
 (3) Voir la note (3) du tableau 2.

9-36 (1) Afin d'obtenir le nombre de bénéficiaires, le nombre de pensions combinées doit être soustrait des données présentées dans la colonne «TOTAL».

OLD AGE SECURITY

SÉCURITÉ DE LA VIEILLESSE

OLD AGE SECURITY

Introduction

The Old Age Security (OAS) program is the cornerstone of Canada's retirement income system. Established in 1951, under the *Old Age Security Act*, the program provides a basic level of income for older Canadians. Benefits include the basic OAS pension, the Guaranteed Income Supplement (GIS) and the Spouse's Allowance (SPA).

The OAS program is financed from federal government general tax revenues and administered by the Department of Human Resources Development.

Benefits are adjusted quarterly to reflect the full increase in the cost of living as measured by the Consumer Price Index.

Old Age Security Pension

The OAS pension is a taxable monthly benefit available to persons 65 years of age or over, who are Canadian citizens or legal residents, and who meet residence requirements. Higher income pensioners repay part or all of their benefit through the tax system.

There are two methods of meeting residence requirements for a full pension. Persons who were 25 years of age or older on July 1, 1977, and met residence requirements, will qualify if they resided in Canada for the 10 years immediately prior to application. Otherwise, persons must reside in Canada for 40 years after reaching age 18 to qualify for a full pension.

Those who do not qualify for a full pension may receive a partial pension, provided they have a minimum of 10 years of residence in Canada after reaching age 18. A partial pension is calculated at the rate of 1/40th of the full pension for each year of residence.

To receive an OAS pension outside the country, a person must have lived in Canada for a minimum of 20 years after reaching age 18.

SÉCURITÉ DE LA VIEILLESSE

Introduction

Le programme de la Sécurité de la vieillesse (SV) est l'élément essentiel du système canadien de revenu de retraite. Établi en 1951 en vertu de la *Loi sur la sécurité de la vieillesse*, le programme assure un revenu de base aux personnes âgées du Canada. Les prestations comprennent la pension de base de la SV, le supplément de revenu garanti (SRG) et l'allocation au conjoint (AAC).

Le programme de la SV est financé à partir des recettes fiscales générales du gouvernement fédéral et est administré par le ministère du Développement des ressources humaines.

Les prestations sont rajustées tous les trois mois afin de tenir compte de l'augmentation intégrale du coût de la vie qui est mesurée par l'indice des prix à la consommation.

Pension de la Sécurité de la vieillesse

La pension de la SV est une prestation mensuelle imposable versée aux personnes âgées de 65 ans ou plus, qui sont citoyens canadiens ou résidents légaux du Canada, et qui répondent aux exigences relatives à la résidence. Les pensionnés ayant un revenu élevé remboursent une partie ou la totalité de leur pension par l'entremise du système fiscal.

Il y a deux façons de répondre aux exigences relatives à la résidence pour recevoir une pension intégrale. Les personnes qui avaient 25 ans ou plus le 1^{er} juillet 1977 et qui répondaient aux exigences relatives à la résidence sont admissibles si elles demeuraient au Canada pendant les dix années précédant immédiatement la demande. Autrement, les personnes doivent résider au Canada pendant au moins 40 ans après avoir atteint l'âge de 18 ans pour avoir droit à une pension intégrale.

Les personnes qui n'ont pas droit à une pension intégrale peuvent toucher une pension partielle à condition d'avoir résidé au Canada pendant au moins dix années après avoir atteint l'âge de 18 ans. Une pension partielle est calculée au taux de 1/40 de la pension intégrale pour chaque année de résidence au Canada.

Pour recevoir une pension de la SV à l'extérieur du pays, une personne doit avoir résidé au Canada pendant au moins 20 ans après avoir atteint l'âge de 18 ans.

Guaranteed Income Supplement

Introduced in 1967, the GIS is a monthly benefit payable to Old Age Security pensioners with little or no other income. Recipients must re-apply each year. The benefit is not taxable.

There are two rates of payment for GIS. The first applies to single pensioners, which includes widowed, divorced or separated persons; and to married pensioners whose spouses do not receive either the basic OAS pension or the Spouse's Allowance. The second applies to legally married couples and to couples living in common-law relationships, where both spouses are pensioners.

If a person is receiving a partial OAS pension, the maximum GIS is increased by the difference between the partial and full OAS pension. This ensures that all OAS pensioners are guaranteed the same minimum income.

Spouse's Allowance

The Spouse's Allowance was introduced in 1975, to address the difficult circumstances faced by low-income couples living on the OAS pension of only one spouse. In 1985, the SPA was extended to all low-income widows and widowers aged 60 to 64.

The SPA is a monthly benefit payable to the spouse of an OAS pensioner or to a widow or widower. To qualify, a person must be between the ages of 60 and 64, and meet residence and income requirements. Recipients must re-apply annually. The benefit is not taxable.

The maximum benefit payable to the spouse of a pensioner is equal to the combined full OAS pension and the maximum GIS at the married rate.

Reciprocal Social Security Agreements

Since 1979, Canada has entered into reciprocal social security agreements with 27 countries. These agreements allow for the coordination of two countries' social security programs and make social security benefits portable between countries.

Supplément de revenu garanti

Introduit en 1967, le SRG est une prestation mensuelle versée aux pensionnés de la Sécurité de la vieillesse qui ont un revenu faible ou nul. Les bénéficiaires doivent en refaire la demande chaque année. Cette prestation n'est pas imposable.

Il y a deux taux pour le supplément de revenu garanti. Le premier s'applique aux pensionnés seuls - y compris les personnes veuves, divorcées ou séparées - et aux pensionnés mariés dont les conjoints ne reçoivent pas la pension de base de la Sécurité de la vieillesse ou l'allocation au conjoint. Le deuxième s'applique aux conjoints mariés légalement et aux couples vivant en union de fait lorsque les deux conjoints sont des pensionnés.

Si un pensionné reçoit une pension partielle de la SV, le SRG maximal est augmenté par la différence entre la pension partielle et la pension intégrale de la SV. On s'assure ainsi que tous les pensionnés de la SV ont le même revenu minimal.

Allocation au conjoint

L'allocation au conjoint a été introduite en 1975 dans le but de reconnaître les situations difficiles auxquelles font face les couples à faible revenu qui dépendent de la pension de la SV d'un seul conjoint. En 1985, l'AAC a été étendue à tous les veufs et veuves à faible revenu âgés de 60 à 64 ans.

L'AAC est une prestation mensuelle versée au conjoint d'un pensionné de la SV, ou à un veuf ou à une veuve. Pour y avoir droit, une personne doit être âgée de 60 à 64 ans et satisfaire les exigences relatives à la résidence et au revenu. Les bénéficiaires doivent en refaire la demande chaque année. Cette prestation n'est pas imposable.

Le montant maximal de la prestation versée au conjoint d'un pensionné est égal à la somme de la pension intégrale de la SV et du SRG maximal au taux de personne mariée.

Accords réciproques sur la sécurité sociale

Depuis 1979, le Canada a conclu des accords réciproques sur la sécurité sociale avec 27 pays. Ces accords permettent la coordination des programmes de sécurité sociale entre deux pays et assurent la transférabilité des prestations de sécurité sociale entre les pays.

These agreements may enable people who live or who have lived in other countries, to add periods of residence abroad to periods of residence in Canada, to satisfy minimum eligibility requirements for OAS and SPA. The benefit amount is based on years of residence in Canada after reaching age 18.

Ces accords peuvent permettre aux personnes qui résident ou qui ont résidé dans d'autres pays d'ajouter les périodes de résidence à l'étranger aux périodes de résidence au Canada pour satisfaire aux exigences minimales d'admissibilité à la SV et à l'AAC. Le montant de la prestation est basé sur les années de résidence au Canada après avoir atteint 18 ans.

Definitions and Terminology

Terms are defined under the first table in which they appear.

TABLE 1

Benefit Rates

OAS benefit rates are specified under the *Old Age Security Act* and increased periodically through legislative amendments.

Benefits are adjusted quarterly to reflect the full increase in the cost of living, as measured by the Consumer Price Index.

TABLE 2

Amount Paid

Payments to Old Age Security beneficiaries.

TABLE 3

GIS as % of OAS

The percentage of total OAS pensioners who receive a Guaranteed Income Supplement.

TABLES 4 TO 16

Province/Territory

Place of residence of the beneficiary. Beneficiaries living outside Canada are included under the last province or territory of residence in Canada.

International Operations

Old Age Security benefits paid to persons living in Canada and abroad under reciprocal Social Security Agreements.

Définitions et terminologie

Les termes sont définis sous le premier tableau dans lequel ils apparaissent.

TABLEAU 1

Taux des prestations

Les taux des prestations sont définis dans la *Loi sur la sécurité de la vieillesse* et augmentent périodiquement par suite de modifications législatives.

Les prestations sont rajustées tous les trois mois afin de tenir compte de l'augmentation intégrale du coût de la vie qui est mesurée par l'indice des prix à la consommation.

TABLEAU 2

Montant versé

Versement aux bénéficiaires de la Sécurité de la vieillesse.

TABLEAU 3

SRG en % de la SV

Le pourcentage du nombre total de pensionnés de la Sécurité de la vieillesse qui reçoivent un supplément de revenu garanti.

TABLEAUX 4 À 16

Province/territoire

Lieu de résidence du bénéficiaire. Les bénéficiaires qui habitent à l'extérieur du Canada sont inclus dans la dernière province ou le dernier territoire de résidence au Canada.

Opérations internationales

Prestations de la Sécurité de la vieillesse versées aux personnes résidant au Canada ou à l'étranger en vertu d'accords réciproques sur la sécurité sociale.

TABLE 31

Old Age Security

Domestic - Persons receiving an Old Age Security pension in Canada.

Foreign - Persons receiving an Old Age Security pension outside Canada.

1-39/40th - Pensioners who meet the residence requirements for a partial OAS pension.

40/40th - Pensioners who meet the residence requirements for a full OAS pension.

TABLE 32

Guaranteed Income Supplement

Single pensioner - OAS pensioners who are single, separated, divorced or widowed and receiving a maximum or partial GIS at the "single" rate.

Spouse is a pensioner - Married and common-law couples, where both spouses are OAS pensioners receiving a maximum or partial GIS at the "married" rate. Both spouses are counted.

Spouse is not a pensioner - Married and common-law couples, where one spouse is an OAS pensioner receiving a maximum or partial GIS at the "single" rate. The other spouse is not receiving the OAS pension or the SPA, and is not counted.

Spouse is in receipt of SPA - Married and common-law couples, where one spouse is an OAS pensioner receiving a maximum or partial GIS at the "married" rate, and the other spouse is receiving a Spouse's Allowance. The spouse receiving SPA is not counted.

TABLE 33

Spouse's Allowance

Regular Spouse's Allowance - SPA paid to the 60 to 64 year old spouse of a pensioner in receipt of OAS and GIS.

TABLEAU 31

Sécurité de la vieillesse

Au pays - Personnes recevant la pension de la Sécurité de la vieillesse au Canada.

À l'étranger - Personnes recevant la pension de la Sécurité de la vieillesse à l'extérieur du Canada.

1-39/40 - Pensionnés répondant aux exigences relatives à la résidence pour une pension partielle de la SV.

40/40 - Pensionnés répondant aux exigences relatives à la résidence pour une pension intégrale de la SV.

TABLEAU 32

Supplément de revenu garanti

Pensionné seul - Pensionnés de la SV qui sont célibataires, séparés, divorcés ou veufs et qui reçoivent le SRG maximal ou partiel versé au taux de «personne seule».

Le conjoint est un pensionné - Couples mariés ou vivant en union de fait, où les deux conjoints sont des pensionnés de la SV recevant le SRG maximal ou partiel versé au taux de «personne mariée». Les deux conjoints sont comptés ici.

Le conjoint n'est pas un pensionné - Couples mariés ou vivant en union de fait, où un conjoint est un pensionné de la SV recevant le SRG maximal ou partiel versé au taux de «personne seule». L'autre conjoint ne reçoit pas la pension de la SV ou l'AAC et il n'est pas compté.

Le conjoint reçoit l'allocation au conjoint - Couples mariés ou vivant en union de fait, où un conjoint est un pensionné de la SV recevant le SRG maximal ou partiel versé au taux de «personne mariée» et l'autre conjoint reçoit l'allocation au conjoint. Le conjoint recevant l'AAC n'est pas compté.

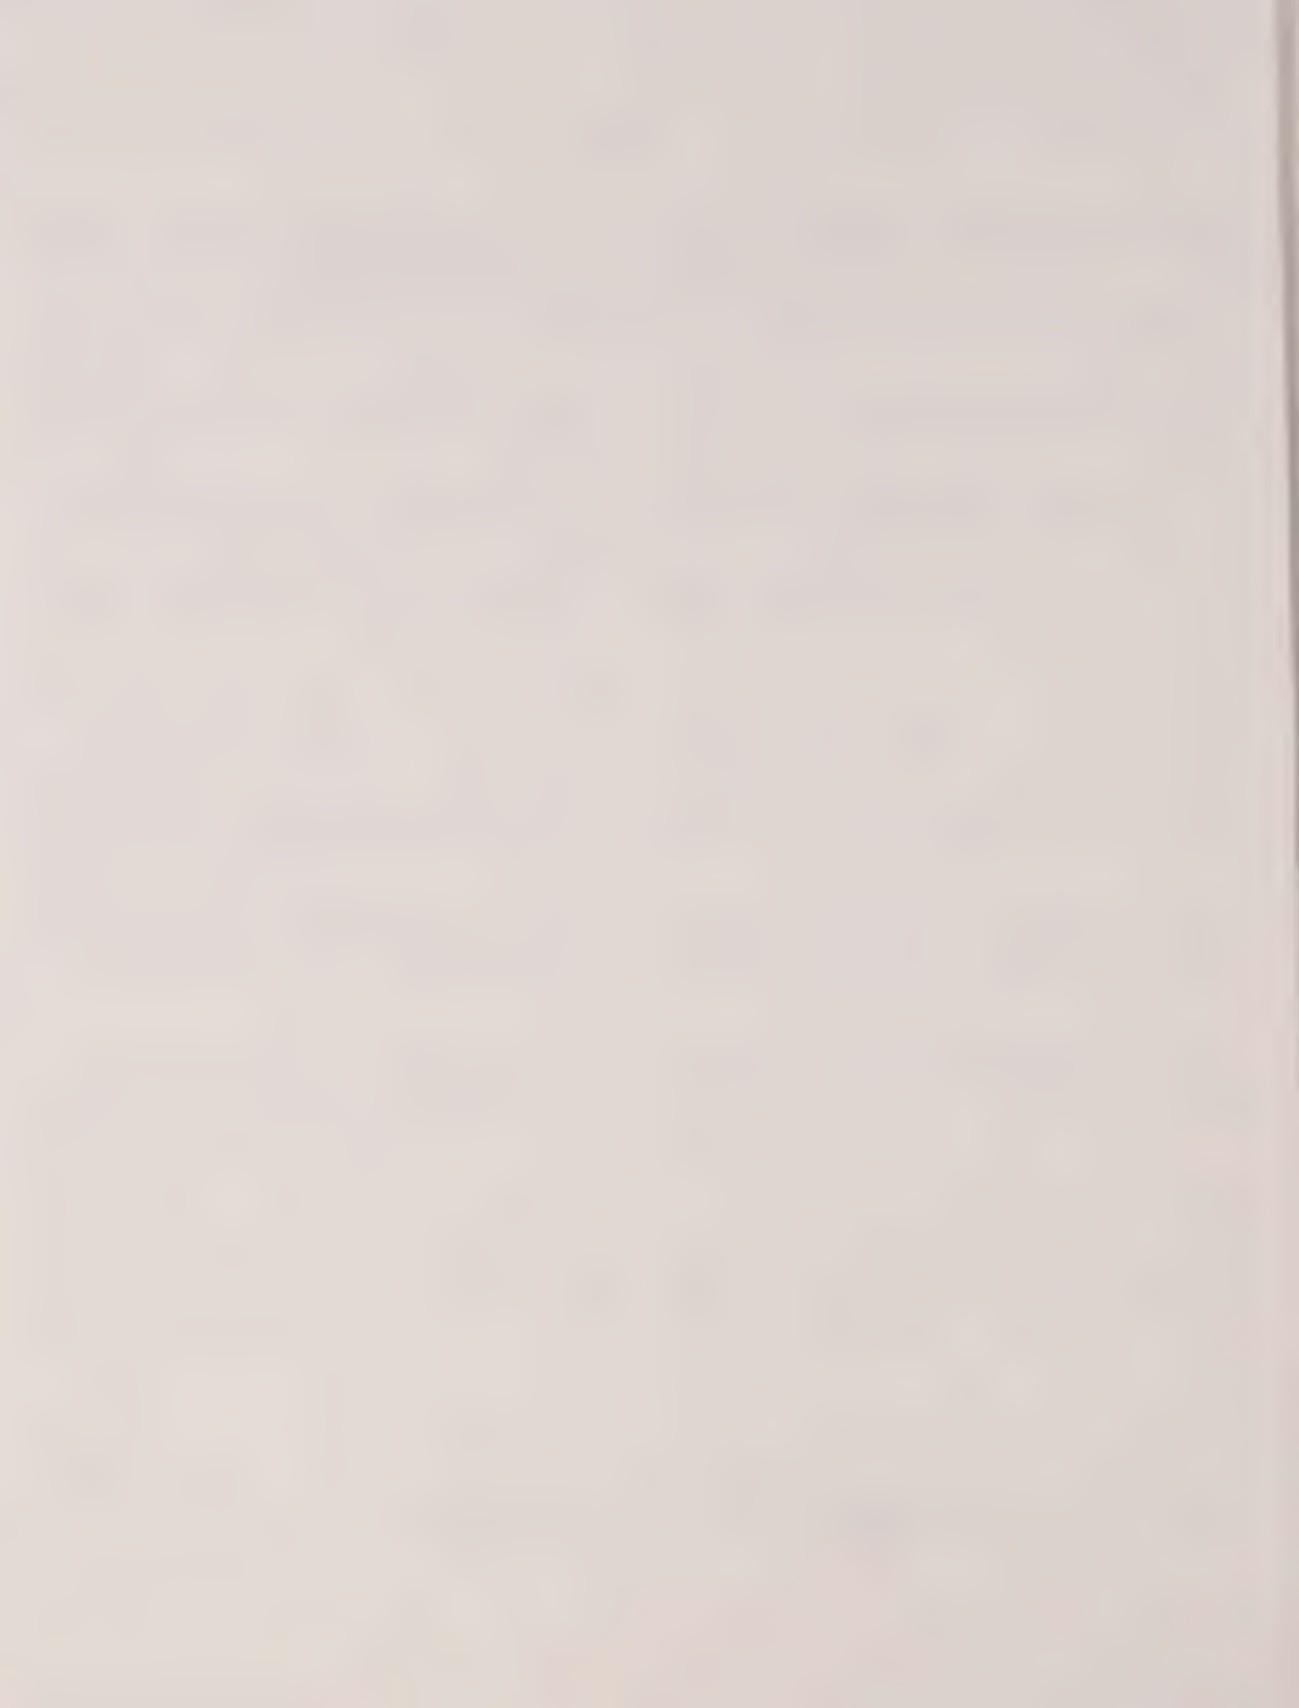

TABLEAU 33

Allocation au conjoint

Allocation régulière au conjoint - AAC versée au conjoint âgé de 60 à 64 ans d'un pensionné recevant la SV et le SRG.

Widowed Spouse's Allowance - SPA paid to a widow or widower aged 60 to 64.

Allocation au conjoint - veufs et veuves - AAC versée à un veuf ou à une veuve âgé de 60 à 64 ans.

OLD AGE SECURITY
 SÉCURITÉ DE LA VIEILLERESSE

EXPLANATORY NOTES

Table	Note	Description
1	(1)	The percentage increase applied every three months to adjust benefits to reflect the full increase in the cost of living as measured by the Consumer Price Index. Quarterly indexation of benefits began in January 1974.
	(2)	Payment of the new rate began in June 1972, retroactive to January 1972.
	(3)	The "single" rate GIS was increased by \$20.00, after indexation in January 1979.
	(4)	The "single" rate GIS was increased by \$35.00, and the "married" rate GIS and SPA were increased by \$17.50, after indexation in July 1980.
	(5)	Indexation was limited to 1.25 percent for the first quarter of 1984, due to legislation limiting increases to 6 and 5 percent in 1983 and 1984.
	(6)	The "single" rate GIS and the Widowed SPA were increased by 25.00 \$, after indexation in July 1984.
	(7)	The "single" rate GIS and the Widowed SPA were increased by \$25.00 in December 1984.

37-40

- (1) Age of beneficiary as of the month of June.

NOTES EXPLICATIVES

Tableau	Note	Description
1	(1)	Le pourcentage d'augmentation appliquée tous les trois mois pour rajuster les prestations afin de tenir compte de l'augmentation intégrale du coût de la vie qui est mesurée par l'indice des prix à la consommation. L'indexation trimestrielle des prestations a commencé en janvier 1974.
	(2)	Le versement du nouveau taux a commencé en juin 1972, avec effet rétroactif remontant à janvier 1972.
	(3)	Le taux de «personne seule» du SRG a été augmenté de 20,00 \$ après l'indexation de janvier 1979.
	(4)	Le taux de «personne seule» du SRG a été augmenté de 35,00 \$, et les taux de «personne mariée» du SRG ainsi que l'AAC ont été augmentés de 17,50 \$ après l'indexation de juillet 1980.
	(5)	L'indexation a été limitée à 1,25 p. 100 pour le premier trimestre de 1984 par suite de la loi restreignant les augmentations à 6 et à 5 p. 100 en 1983 et en 1984.
	(6)	Les taux pour «personne seule» du SRG et l'AAC pour veufs et veuves ont été augmentés de 25,00 \$ après l'indexation de juillet 1984.
	(7)	Les taux pour «personne seule» du SRG et l'AAC pour veufs et veuves ont été augmentés de 25,00 \$ en décembre 1984.

37-40

- (1) Âge du bénéficiaire au mois de juin.
